

A detailed 3D wireframe model of a particle accelerator complex, showing various components like rings, straight sections, and beamlines. The model is rendered in a light gray wireframe style, highlighting the intricate geometry of the facility.

Sub-project InterLAC

Project meeting #2

2nd July 2026

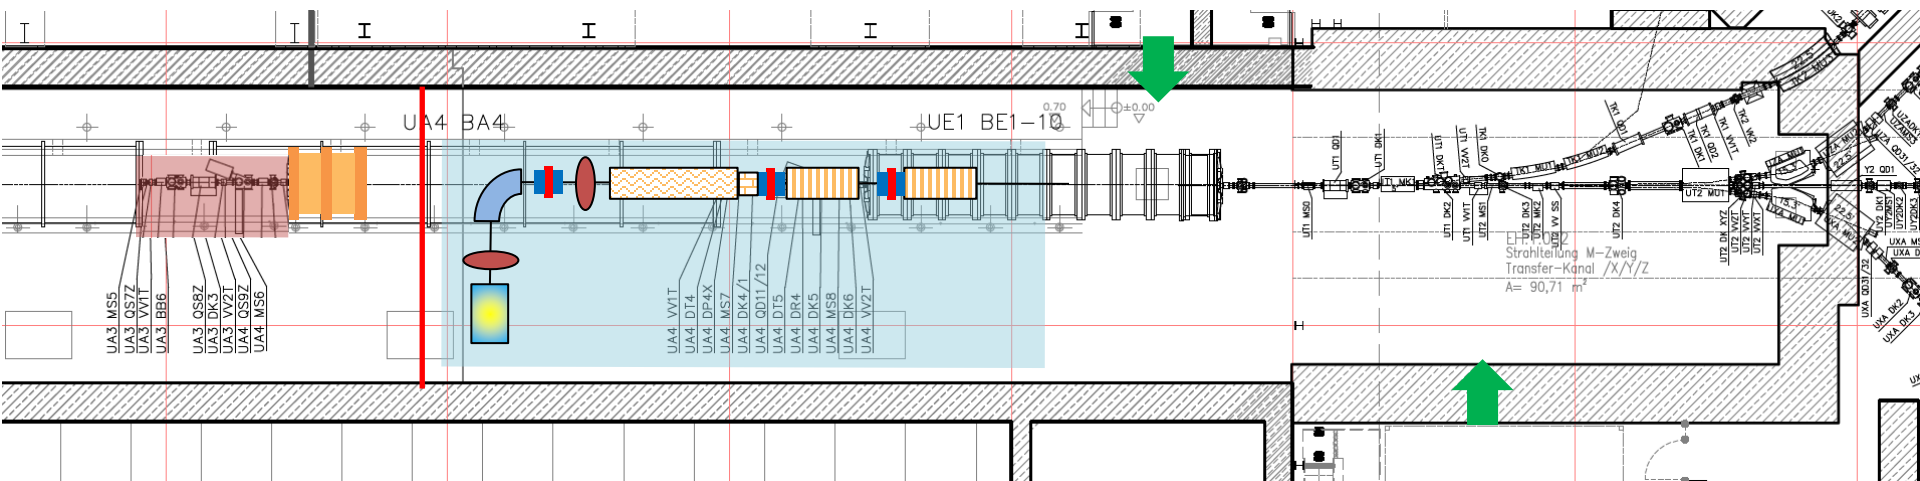

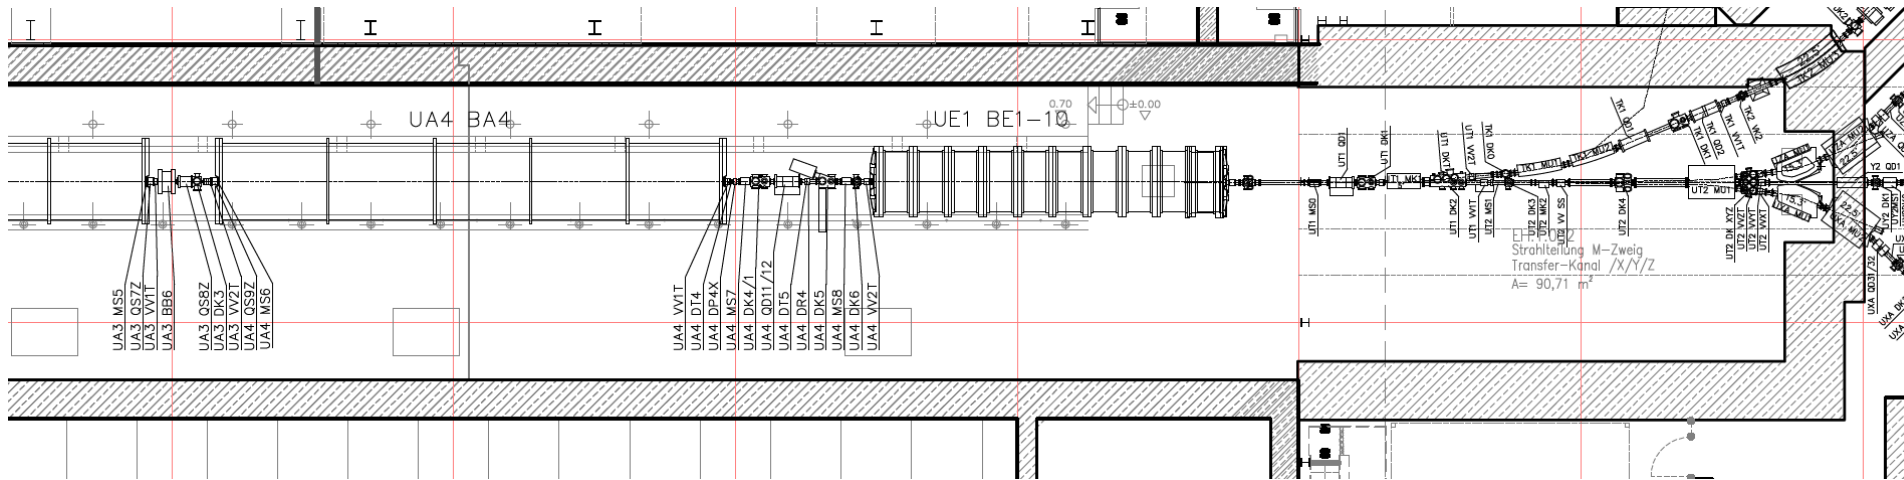

Gregor Loisch, Hartmut Vormann

Currently open (rough) questions

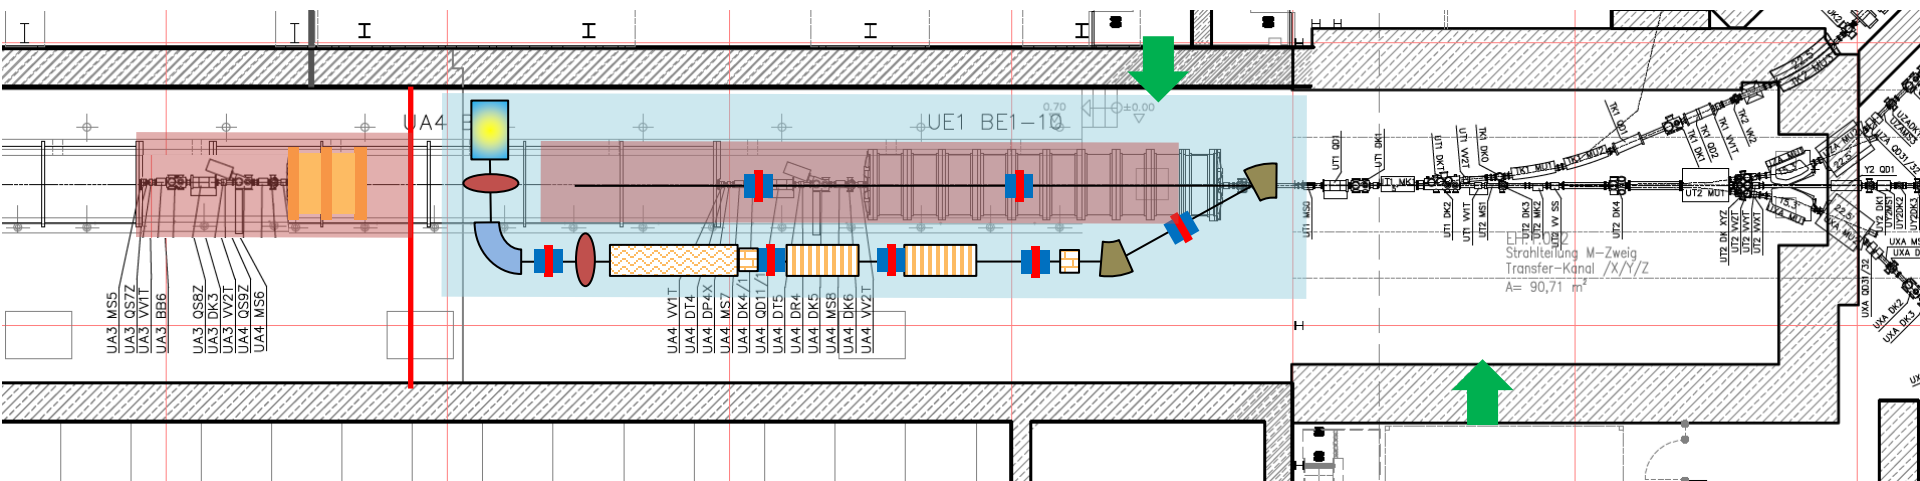

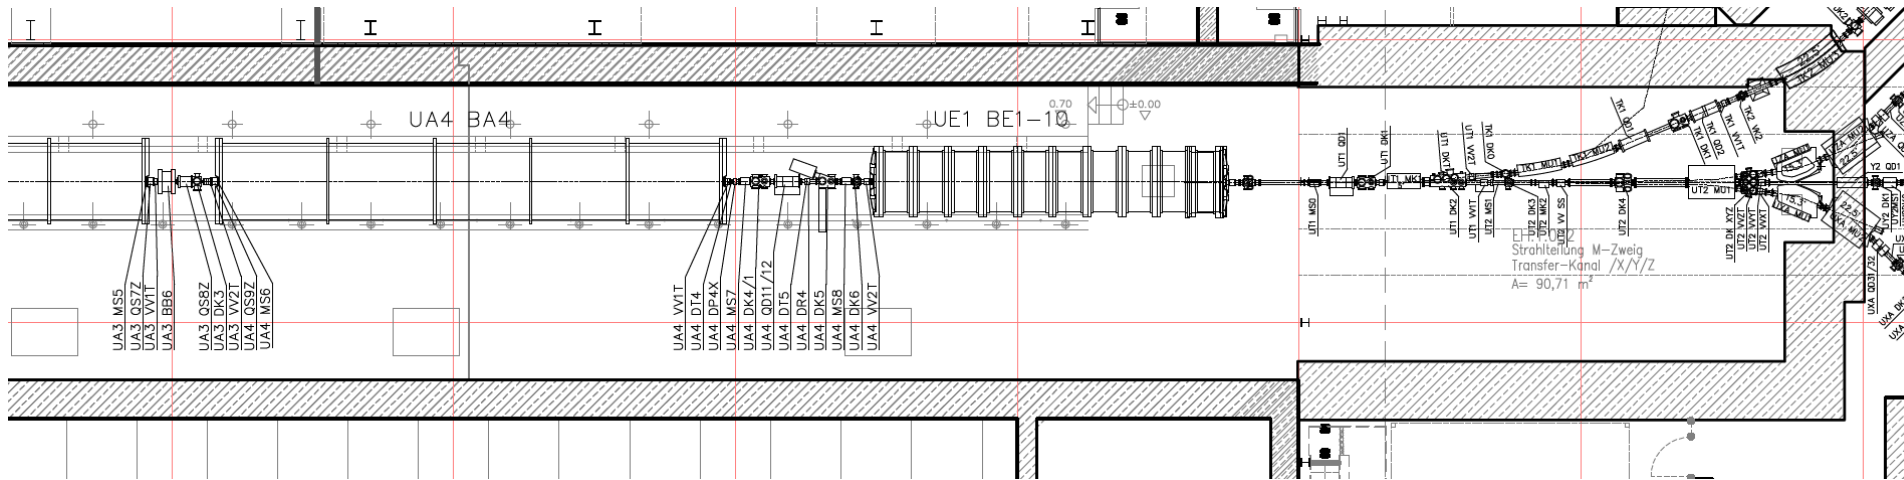

- space requirements outside tunnel
→ component list (!?)
- exact position in tunnel
→ next slides
- storage space for components still TBD

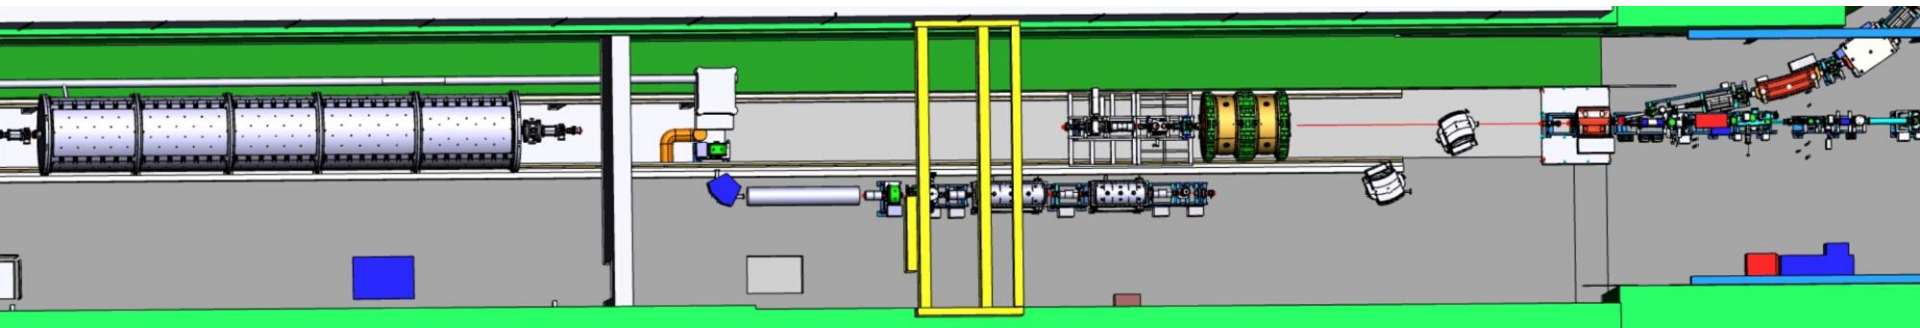

No A4 → parallel „completion“ of UNILAC

No A4 → parallel „completion“ of UNILAC

No A4 → parallel „completion“ of
UNILAC

Storage & „re-moval“ of A4
